**Correspondence Email Address:** matt@321-law.com

## **FINAL OFFICE ACTION**

**Response deadline.** File a request for reconsideration of this final Office action and/or a timely appeal to the Trademark Trial and Appeal Board (TTAB) within three months of the “Issue date” below to avoid [abandonment](#) of the application. Review the Office action and respond using one of the links below to the appropriate electronic forms in the “How to respond” section below.

**Request an extension.** For a fee, applicant may [request one three-month extension](#) of the response deadline prior to filing a response and/or an appeal. The request must be filed within three months of the “Issue date” below. If the extension request is granted, the USPTO must receive applicant's response and/or appeal within six months of the “Issue date” to avoid abandonment of the application.

**Issue date:** November 7, 2023

### **INTRODUCTION**

This Office action is in response to applicant's communication filed on October 10, 2023.

In a previous Office action dated April 11, 2023, the trademark examining attorney refused registration of the applied-for mark based on the following: Trademark Act Section 2(d) for a likelihood of confusion with registered marks.

Based on applicant's response, the trademark examining attorney maintains and now makes FINAL the

refusal in the summary of issues below. *See* 37 C.F.R. §2.63(b); TMEP §714.04.

**SUMMARY OF ISSUES MADE FINAL** that applicant must address:

- Section 2(d) Refusal - Likelihood of Confusion

## **SECTION 2(d) REFUSAL – LIKELIHOOD OF CONFUSION**

In its response dated October 10, 2023, applicant's sole response is: "Applicant thanks the Examining Attorney for their assistance with this application. Applicant notes the refusal to register Applicant's mark based on a belief of a likelihood of confusion. Applicant respectfully disagrees with the refusal and requests that its application be approved for publication." As applicant has added nothing substantive to the record, for the reasons reiterated from the April 11, 2023 Office Action and set forth below, the refusal under Trademark Act Section 2(d) is now made FINAL with respect to U.S. Registration No. 5578775, 6191099, and 6625640. *See* 15 U.S.C. §1052(d); 37 C.F.R. §2.63(b).

Registration of the applied-for mark is refused because of a likelihood of confusion with the marks in U.S. Registration Nos. 5578775, 6191099, and 6625640. Trademark Act Section 2(d), 15 U.S.C. §1052(d); *see* TMEP §§1207.01 et seq. *See* the attached registrations.

Applicant's mark is **MONSTER** (in standard characters) for "Portable battery-operated lights that can be placed on surfaces where other light sources are unavailable and lighting fixtures; wall mounted lighting fixtures; ceiling mounted lighting fixtures; electric night lights; strip lighting for indoor use, namely, rope lights in the nature of LED and incandescent light strips for decorative purposes; strip lighting for indoor use, namely, strip lights in the nature of LED and incandescent light strips for decorative and task lighting purposes; track lighting; table lamps; desk lamps; under cabinet lighting installations; flashlights; electric light bulbs; Edison style light bulbs; fluorescent electric light bulbs; LED light bulbs; electric lighting fixtures; solar lighting fixtures; LED lighting fixtures; floor lamps; exterior lighting installations and lighting fixtures; landscape lights in the nature of landscape lighting installations and lighting fixtures; deck and patio lighting installations and lighting fixtures; furniture lighting installations and lighting fixtures; light bars, namely, strip lighting for indoor use; holographic lighting installations and lighting fixtures; ring lights for illumination purposes and lighting fixtures; electronic heated blankets, namely, electric blankets not for medical purposes; LED light assemblies for automobiles; automotive blankets, namely, electric blankets not for medical purposes" in International Class 11.

The mark in U.S. Registration No. 5578775 is **LED MONSTER** (in standard characters) for "LED light assemblies for street lights, signs, commercial lighting, automobiles, buildings, and other architectural uses; LED light bulbs; LED light strips for decorative purposes" in International Class 11.

The mark in U.S. Registration No. 6191099 is **MONSTRUM** (in standard characters) for, in relevant part, "Flashlights, headlamps not for medical purposes, flashlight mounts" in International Class 11.

The mark in U.S. Registration No. 6625640 is **MONSTER BOARD** (in standard characters) for "Lamps; Searchlights; Fluorescent lamp tubes; Infrared lighting fixtures; Lamps for tents; Lanterns for lighting; LED lamps; LED light bulbs; LED safety lamps; LED underwater lights; Lighting apparatus, namely, lighting installations; Lighting fixtures; Lighting installations for vehicles; Lights for use in growing plants; Lights for vehicles; Luminous tubes for lighting; Portable headlamps; Solar light fixtures, namely, indoor and outdoor solar powered lighting units and fixtures; String lights for festive decoration; Theatrical stage lighting apparatus; Ultraviolet ray lamps, not for medical purposes" in

## International Class 11.

Trademark Act Section 2(d) bars registration of an applied-for mark that is so similar to a registered mark that it is likely consumers would be confused, mistaken, or deceived as to the commercial source of the goods and/or services of the parties. See 15 U.S.C. §1052(d). Likelihood of confusion is determined on a case-by-case basis by applying the factors set forth in *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (C.C.P.A. 1973) (called the “*du Pont* factors”). *In re i.am.symbolic, llc*, 866 F.3d 1315, 1322, 123 USPQ2d 1744, 1747 (Fed. Cir. 2017). Any evidence of record related to those factors need be considered; however, “not all of the *DuPont* factors are relevant or of similar weight in every case.” *In re Guild Mortg. Co.*, 912 F.3d 1376, 1379, 129 USPQ2d 1160, 1162 (Fed. Cir. 2019) (quoting *In re Dixie Rests., Inc.*, 105 F.3d 1405, 1406, 41 USPQ2d 1531, 1533 (Fed. Cir. 1997)).

Although not all *du Pont* factors may be relevant, there are generally two key considerations in any likelihood of confusion analysis: (1) the similarities between the compared marks and (2) the relatedness of the compared goods and/or services. See *In re i.am.symbolic, llc*, 866 F.3d at 1322, 123 USPQ2d at 1747 (quoting *Herbko Int’l, Inc. v. Kappa Books, Inc.*, 308 F.3d 1156, 1164-65, 64 USPQ2d 1375, 1380 (Fed. Cir. 2002)); *Federated Foods, Inc. v. Fort Howard Paper Co.*, 544 F.2d 1098, 1103, 192 USPQ 24, 29 (C.C.P.A. 1976) (“The fundamental inquiry mandated by [Section] 2(d) goes to the cumulative effect of differences in the essential characteristics of the goods [or services] and differences in the marks.”); TMEP §1207.01.

### Similarity of the Marks

Applicant’s mark is **MONSTER** (in standard characters).

The mark in U.S. Registration No. 5578775 is **LED MONSTER** (in standard characters).

The mark in U.S. Registration No. 6191099 is **MONSTRUM** (in standard characters).

The mark in U.S. Registration No. 6625640 is **MONSTER BOARD** (in standard characters).

Marks are compared in their entireties for similarities in appearance, sound, connotation, and commercial impression. *Stone Lion Capital Partners, LP v. Lion Capital LLP*, 746 F.3d 1317, 1321, 110 USPQ2d 1157, 1160 (Fed. Cir. 2014) (quoting *Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondee En 1772*, 396 F.3d 1369, 1371, 73 USPQ2d 1689, 1691 (Fed. Cir. 2005)); TMEP §1207.01(b)-(b)(v). “Similarity in any one of these elements may be sufficient to find the marks confusingly similar.” *In re Inn at St. John’s, LLC*, 126 USPQ2d 1742, 1746 (TTAB 2018) (citing *In re Davia*, 110 USPQ2d 1810, 1812 (TTAB 2014)), *aff’d per curiam*, 777 F. App’x 516, 2019 BL 343921 (Fed. Cir. 2019); TMEP §1207.01(b).

When comparing marks, “[t]he proper test is not a side-by-side comparison of the marks, but instead whether the marks are sufficiently similar in terms of their commercial impression such that [consumers] who encounter the marks would be likely to assume a connection between the parties.” *Cai v. Diamond Hong, Inc.*, 901 F.3d 1367, 1373, 127 USPQ2d 1797, 1801 (Fed. Cir. 2018) (quoting *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1368, 101 USPQ2d 1713, 1721 (Fed. Cir. 2012)); TMEP §1207.01(b). The proper focus is on the recollection of the average purchaser, who retains a general rather than specific impression of trademarks. *In re Ox Paperboard, LLC*, 2020 USPQ2d 10878, at \*4 (TTAB 2020) (citing *In re Bay State Brewing Co.*, 117 USPQ2d 1958, 1960

(TTAB 2016)); *In re Inn at St. John's, LLC*, 126 USPQ2d 1742, 1746 (TTAB 2018); TMEP §1207.01(b); *see In re St. Helena Hosp.*, 774 F.3d 747, 750-51, 113 USPQ2d 1082, 1085 (Fed. Cir. 2014).

U.S. Registration Nos. 5578775 and 6625640

In the present case, applicant's mark and the marks in U.S. Registration Nos. 5578775 and 6625640 create similar commercial impressions because each of the marks feature the nearly identical term "MONSTER". Marks may be confusingly similar in appearance where similar terms or phrases or similar parts of terms or phrases appear in the compared marks and create a similar overall commercial impression. *See Crocker Nat'l Bank v. Canadian Imperial Bank of Commerce*, 228 USPQ 689, 690-91 (TTAB 1986), *aff'd sub nom. Canadian Imperial Bank of Commerce v. Wells Fargo Bank, Nat'l Ass'n*, 811 F.2d 1490, 1495, 1 USPQ2d 1813, 1817 (Fed. Cir. 1987) (holding COMMCASH and COMMUNICASH confusingly similar); *In re Corning Glass Works*, 229 USPQ 65, 66 (TTAB 1985) (holding CONFIRM and CONFIRMCELLS confusingly similar); *In re Pellerin Milnor Corp.*, 221 USPQ 558, 560 (TTAB 1983) (holding MILTRON and MILLTRONICS confusingly similar); TMEP §1207.01(b)(ii)-(iii).

Moreover, this nearly identical wording is also the dominant or sole wording in each of the respective marks. Indeed, although marks are compared in their entireties, one feature of a mark may be more significant or dominant in creating a commercial impression. *See In re Viterra Inc.*, 671 F.3d 1358, 1362, 101 USPQ2d 1905, 1908 (Fed. Cir. 2012); *In re Nat'l Data Corp.*, 753 F.2d 1056, 1058, 224 USPQ 749, 751 (Fed. Cir. 1985); TMEP §1207.01(b)(viii), (c)(ii).

Disclaimed matter that is descriptive of or generic for a party's goods is typically less significant or less dominant when comparing marks. *See In re Detroit Athletic Co.*, 903 F.3d 1297, 1305, 128 USPQ2d 1047, 1050 (Fed. Cir. 2018) (*citing In re Dixie Rests., Inc.*, 105 F.3d 1405, 1407, 41 USPQ2d 1531, 1533-34 (Fed. Cir. 1997)); *Made in Nature, LLC v. Pharmavite LLC*, 2022 USPQ2d 557, at \*41 (TTAB 2022); TMEP §1207.01(b)(viii), (c)(ii).

In the present case, the wording "LED" is disclaimed in U.S. Registration No. 5578775 and "BOARD" is disclaimed in U.S. Registration No. 6625640. Thus, this wording is less significant in terms of affecting the marks' overall commercial impressions, and renders the wording "MONSTER" the dominant or sole element of the marks. As such, consumers encountering the marks may believe that applicant's mark merely identifies a line of goods from the same source as registrants' marks.

U.S. Registration No. 6191099

Further, under the doctrine of foreign equivalents, a mark in a common, modern foreign language and a mark that is its English equivalent may be held confusingly similar. TMEP §1207.01(b)(vi); *see, e.g., In re Aquamar, Inc.*, 115 USPQ2d 1122, 1127-28 (TTAB 2015); *In re Thomas*, 79 USPQ2d 1021, 1025 (TTAB 2006). Consequently, marks comprised of foreign wording are translated into English to determine similarity in meaning and connotation with English word marks. *See Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondée en 1772*, 396 F.3d 1369, 1377, 73 USPQ2d 1689, 1696 (Fed. Cir. 2005). Equivalence in meaning and connotation may be sufficient to find such marks confusingly similar. *See In re Aquamar, Inc.*, 115 USPQ2d at 1127-28; *In re Thomas*, 79 USPQ2d at 1025.

The registrant's mark is in Polish, which is a common, modern language in the United States. *See In re*

*New Yorker Cheese Co.*, 130 USPQ 120 (TTAB 1961) (Polish).

The doctrine is applied when “the ordinary American purchaser” would “stop and translate” the foreign term into its English equivalent. *Palm Bay*, 396 F.3d at 1377, 73 USPQ2d at 1696 (quoting *In re Pan Tex Hotel Corp.*, 190 USPQ 109, 110 (TTAB 1976)); TMEP §1207.01(b)(vi)(A). The ordinary American purchaser includes those proficient in the foreign language. *In re Spirits Int’l, N.V.*, 563 F.3d 1347, 1352, 90 USPQ2d 1489, 1492 (Fed. Cir. 2009); see *In re Thomas*, 79 USPQ2d at 1024. Specifically, the evidence from Census.gov shows the large number of U.S. consumers who speak this language.

In this case, the ordinary American purchaser would likely stop and translate the mark because the Polish language is a common, modern language spoken by an appreciable number of consumers in the United States. Specifically, the evidence from the Cambridge Dictionary shows the foreign wording directly translates to the English wording, "MONSTER". As such, consumers retaining only a general rather than a specific impression of trademarks are likely to believe that the applicant’s and registrant’s marks identify the same source as applied to the respective goods.

Accordingly, applicant’s and registrants' marks are confusingly similar.

### **Relatedness of the Goods**

Applicant’s goods are for “Portable battery-operated lights that can be placed on surfaces where other light sources are unavailable and lighting fixtures; wall mounted lighting fixtures; ceiling mounted lighting fixtures; electric night lights; strip lighting for indoor use, namely, rope lights in the nature of LED and incandescent light strips for decorative purposes; strip lighting for indoor use, namely, strip lights in the nature of LED and incandescent light strips for decorative and task lighting purposes; track lighting; table lamps; desk lamps; under cabinet lighting installations; flashlights; electric light bulbs; Edison style light bulbs; fluorescent electric light bulbs; LED light bulbs; electric lighting fixtures; solar lighting fixtures; LED lighting fixtures; floor lamps; exterior lighting installations and lighting fixtures; landscape lights in the nature of landscape lighting installations and lighting fixtures; deck and patio lighting installations and lighting fixtures; furniture lighting installations and lighting fixtures; light bars, namely, strip lighting for indoor use; holographic lighting installations and lighting fixtures; ring lights for illumination purposes and lighting fixtures; electronic heated blankets, namely, electric blankets not for medical purposes; LED light assemblies for automobiles; automotive blankets, namely, electric blankets not for medical purposes” in International Class 11.

The goods in U.S. Registration No. 5578775 are for “LED light assemblies for street lights, signs, commercial lighting, automobiles, buildings, and other architectural uses; LED light bulbs; LED light strips for decorative purposes” in International Class 11.

The goods in U.S. Registration No. 6191099 are for, in relevant part, “Flashlights, headlamps not for medical purposes, flashlight mounts” in International Class 11.

The goods in U.S. Registration No. 6625640 are for “Lamps; Searchlights; Fluorescent lamp tubes; Infrared lighting fixtures; Lamps for tents; Lanterns for lighting; LED lamps; LED light bulbs; LED safety lamps; LED underwater lights; Lighting apparatus, namely, lighting installations; Lighting fixtures; Lighting installations for vehicles; Lights for use in growing plants; Lights for vehicles; Luminous tubes for lighting; Portable headlamps; Solar light fixtures, namely, indoor and outdoor solar powered lighting units and fixtures; String lights for festive decoration; Theatrical stage lighting

apparatus; Ultraviolet ray lamps, not for medical purposes” in International Class 11.

The compared goods need not be identical or even competitive to find a likelihood of confusion. *See On-line Careline Inc. v. Am. Online Inc.*, 229 F.3d 1080, 1086, 56 USPQ2d 1471, 1475 (Fed. Cir. 2000); *Recot, Inc. v. Becton*, 214 F.3d 1322, 1329, 54 USPQ2d 1894, 1898 (Fed. Cir. 2000); TMEP §1207.01(a)(i). They need only be “related in some manner and/or if the circumstances surrounding their marketing are such that they could give rise to the mistaken belief that [the goods and/or services] emanate from the same source.” *Coach Servs., Inc. v. Triumph Learning LLC*, 668 F.3d 1356, 1369, 101 USPQ2d 1713, 1722 (Fed. Cir. 2012) (quoting *7-Eleven Inc. v. Wechsler*, 83 USPQ2d 1715, 1724 (TTAB 2007)); TMEP §1207.01(a)(i); *see Made in Nature, LLC v. Pharmavite LLC*, 2022 USPQ2d 557, at \*44 (TTAB 2022) (quoting *In re Jump Designs LLC*, 80 USPQ2d 1370, 1374 (TTAB 2006)).

Indeed, the attached and previously attached Internet evidence establishes that the same entity commonly provides the relevant goods and markets the goods under the same mark. *See* attached and previously attached Internet evidence from Pottery Barn, L.L. Bean, Philips, Waveform Lighting, Brookstone, Energizer, and Bare Bones Living showing the same parties offering portable battery-operated lights, wall mounted lighting fixtures, ceiling mounted lighting fixtures, strip lighting, rope lights, table lamps, desk lamps, lighting installations, light bulbs, exterior lighting installations and fixtures, furniture lighting, flashlights, headlamps, lamps, searchlights, string lights, and lamps for tents. Thus, applicant’s and registrants’ goods are considered related for likelihood of confusion purposes. *See, e.g., In re Davey Prods. Pty Ltd.*, 92 USPQ2d 1198, 1202-04 (TTAB 2009); *In re Toshiba Med. Sys. Corp.*, 91 USPQ2d 1266, 1268-69, 1271-72 (TTAB 2009).

## **Section 2(d) Refusal – Conclusion**

The marks are similar in overall commercial impression, and the goods are highly related. It is likely that a consumer would mistakenly believe applicant’s goods are offered by registrant(s) or vice versa. For these reasons, registration is refused pursuant to Section 2(d) of the Trademark Act.

The overriding concern is not only to prevent buyer confusion as to the source of the goods and/or services, but to protect the registrant from adverse commercial impact due to use of a similar mark by a newcomer. *See In re Shell Oil Co.*, 992 F.2d 1204, 1208, 26 USPQ2d 1687, 1690 (Fed. Cir. 1993). Therefore, any doubt regarding a likelihood of confusion determination is resolved in favor of the registrant. TMEP §1207.01(d)(i); *see Hewlett-Packard Co. v. Packard Press, Inc.*, 281 F.3d 1261, 1265, 62 USPQ2d 1001, 1003 (Fed. Cir. 2002); *In re Hyper Shoppes (Ohio), Inc.*, 837 F.2d 463, 464-65, 6 USPQ2d 1025, 1026 (Fed. Cir. 1988).

Although applicant’s mark has been refused registration, applicant may respond to the refusal(s) by submitting evidence and arguments in support of registration.

**ASSISTANCE:** Please call or email the assigned trademark examining attorney with questions about this Office action. Although an examining attorney cannot provide legal advice, the examining attorney can provide additional explanation about the refusal(s) and/or requirement(s) in this Office action. *See* TMEP §§705.02, 709.06.

The USPTO does not accept emails as responses to Office actions; however, emails can be used for informal communications and are included in the application record. *See* 37 C.F.R. §§2.62(c), 2.191; TMEP §§304.01-.02, 709.04-.05.

**How to respond.** File a [request form for reconsideration of this final Office action](#) that fully resolves all outstanding requirements and/or refusals and/or file a timely [appeal form to the Trademark Trial and Appeal Board](#) with the required fee(s). Alternatively, applicant may file a [request form for an extension of time to file a response](#) for a fee.

OVERVIEW

This rechargeable LED flashlight features cage styling for a vintage twist on a modern design. A hook on the bottom makes it easy to hang in a tent or in the garage, and it runs up to 24 hours on a single charge.

- Unique cage style and vintage appearance with modern functionality.
- Offered in a variety of finishes; each sold separately.
- Dual brightness LED bulb with telescoping light focus adjustment.
- Phthalate, BPA, lead and latex free.
- Run Time is 24 hours on low and 2.5 hours on high.
- Included: 1 LED bulb and 1 USB C charging cable.
- Limited 1 year manufacturer's warranty.
- Imported.

• Floor lamps are a great addition to any room in the home. These indoor lighting essentials allow you to illuminate a large, focused area of the room at once. Floor lamps are often used at night when the overhead ceiling light would be too bright.

## OUTDOOR LIGHTING

At night or on cloudy days, outdoor lighting can make your home sparkle. Explore our outdoor lighting collection with the help of porch lights, outdoor sconces and string lights.

All rights reserved. © 2023 Williams-Sonoma, Inc. All rights reserved. [Terms & Conditions (Updated January 2023)] [Accessibility | Privacy Policy (Updated January 2023)] [Legal Statement]

- Hanging porch lights are light fixtures that can be installed on your porch ceiling or roof overhang. With the right light bulbs, these lights will effectively illuminate the entire area. Choose from flush mount porch lights for porches with low ceilings or add drama with hanging pendant lights.
- Outdoor sconces function just like indoor wall sconces but are made with durable materials that can stand up to inclement weather conditions. Install these gorgeous lights on walls at the front, back or side of your home.
- String lights are mostly decorative but will add extra light to your outdoor living space. These lights can be wrapped around a tree, draped over a fence or hung on the roof. Choose from classic white bulbs or pretty colored string lights.

Pottery Barn has the right light fixtures to create warmth and add brightness. Choose a decorative ceiling light for every space, then supplement with wall, table and floor lights to complete the look.

OVERVIEW

Light up your Saturday nights. Our LED strings lights are party-approved, so you can cast a subtle glow and set the mood for year-round entertaining. The cafe-style bulbs illuminate your gazebo, canopy or outdoor area.

- Durable, impact resistant acrylic bulbs won't break if dropped, stepped on, or blown around in the wind.
- Each strand of Enbrighten Café Lights has end-to-end connections, so you can link multiple sets to achieve the perfect length for any installation.
- Linkable up to 750 feet and easy to install with flexible mounting options, mount on a flat surface or hang from above (mounting hardware not included).
- Available in 12, 24 or 48' length.
- Enbrighten LEDs reduce energy usage by over 95% and last a lifetime.
- Commercial grade construction and UL Listed for permanent indoor and outdoor installation, designed to withstand year-round exposure to the elements so you only have to set them up once.
- Imported.

## Helping you make the right choice

Welcome to the extensive light bulb collection from Philips Lighting. It includes LED, halogen and fluorescent bulbs for your home, office, and more. They come in a variety of shapes, styles, and bases to meet many applications for lighting and decor. Whether you want to create the perfect atmosphere for your home, energize your home office or study, add ambiance with color, complement your decor, or simply save energy and reduce your electric bill, there's something for you. And it doesn't have to be a challenge to find the right light bulb. It's easy to use, and helps you find the right bulb for your needs.

Find the light bulb technology that's right for you

### Long lasting Philips LED light bulbs

A LED light bulb can last for a decade or more. LED bulbs have many styles, including soft white and daylight. With Philips LED technology, you can choose between dimmable, SceneSwitch, or vintage filament options

[Discover Philips LED](#)

### Energy saving compact fluorescent light bulbs

A compact fluorescent (CFL) light bulb can offer comfortable soft light for an inviting atmosphere. Philips CFLs combine the energy efficiency of fluorescent light with the convenience of incandescent bulbs.

[Discover Philips CFL](#)

### A familiar look and feel with halogen light bulbs

Halogen bulbs are the quickest and easiest way to replace classic incandescent light bulbs. With a wide range of lighting possibilities, halogen offers the same quality of warm, sparkling light as incandescent.

## Product Categories

### A-Series LED Bulbs

Our A19 and A21 lamps fit in standard lamp fixtures and are perfect for floor and desk lamp fixtures.

### Decorative LED Bulbs

View our high CRI decorative LED bulbs that replicate the classic appearance of incandescent bulbs.

### BR30 LED Lamps

BR30 lamps are ceiling lamps that fit in residential and commercial fixtures with 4-inch or wider openings.

### T8 LED Lamps

Directly replace 4-ft fluorescent lamps with our T8 LED tube lights, compatible both with and without ballasts.

### LED-Ready T8 Fixtures

LED tube light fixtures pre-wired and compatible with our T8 LED lamps.

### LED Linear Fixtures

Linear lamp fixtures in 2-ft and 4-ft lengths. Plugs into standard wall outlets and mounts using screws or magnets.

### LED Shop Lights

Overhead light fixtures with hanging chains. Plugs into standard wall outlets.

### UV-A LED Lights

We offer 365 nm and 395 nm LED lights for fluorescence and curing applications.

### UV-C LED Lights

We offer 270 nm UV-C LED lights for germicidal applications.

### LED Modules & Accessories

LED PCBs, panels and other form factors for a variety of industrial and scientific applications.

### LED Strip Lights

Bright LED emitters mounted on a flexible circuitboard. Can be cut-to-length and installed in a variety of locations.

### LED Strip Dimmers

Dimmers and controllers to adjust LED strip lighting system brightness and color.

### LED Strip Power Supplies

Power supply units to convert line voltage to low voltage DC needed for LED strip light systems.

### Aluminum Channels

Extruded aluminum channel profiles for mounting LED strip lights.

### LED Strip Connectors

Solderless connectors, wires and adapters to join and connect LED strip light system components together.

## Lighting Applications

**HOME & RESIDENTIAL**

Lighting products designed for home and residential use. Featuring high CRI and wall-dimmer compatibility.

**FILMGRADE™ FILM & PHOTO**

95 CRI tungsten & daylight cinematography lighting, flicker-free controllers and DMX dimmers.

**HORTICULTURE**

Lighting systems and lamps with spectra tuned for maximum growth and yield.

**REALUV™ ULTRAVIOLET**

UV LED lights with true ultraviolet light output for fluorescence and industrial applications.

**CENTRIC SERIES™**

Human-centric lighting tuned for health and well-being.

**D65 BIAS LIGHTING**

D65 calibrated light sources to ensure accurate lighting conditions for color-critical tasks.

#### D50 COLOR MATCHING

Lights for color-critical applications in graphic arts, calibrated to ISO 3664 standards.

#### AQUARIUM LIGHTING

Optimally tuned spectra for planted tank and aquarium applications.

#### NORTHLUX™ ART & PAINTING

Work on your art & painting projects with full confidence knowing it will appear the same under natural daylight.

“

★★★★★

"Waveform Lighting provides in-depth specifications and test results; far beyond any other manufacturer I have yet seen. Their website demonstrates that they are aware of what is required for quality lighting and of color science."

- Mark Cole

“

★★★★★

"I wanted quality lights and I found them here at Waveform. These lights set the benchmark high! I was very happy to get the super high CRI..."

- John Elliott

“

★★★★★

"We have tried several different UV lights and the Waveform lights are without question the best we have used. Highly recommended."

- Stuart Wilensky

### Spectral waveform matters.

In lighting applications ranging from commercial to retail, hospitality to horticulture, both consumers and professionals have come to expect so much more than just improved efficiency and longevity from LED lighting. It is no longer enough to simply evaluate the quantity of light, but its quality.

Any meaningful discussion of light quality is fundamentally based on a light source's spectral power distributions (SPD). Only by understanding exactly how much energy is emitted at each wavelength, can we meaningfully understand lighting

quality metrics such as color rendition and fidelity.

Try out our spectrum simulator to see what is possible with our LED technologies!

## realUV™ LED Flashlight with BLACKOUT™ Filter Technology

★★★★★ 12 reviews

PART NUMBER 7023 | IN STOCK

\$149.00 USD

Battery

No Battery ▾

Quantity

- 1 +

Add to cart

- 5W 365 nm UV LED flashlight with BLACKOUT™ filter technology
- BLACKOUT™ filter blocks visible light and only allows ultraviolet energy to pass through
- Powerful, narrow UV-A beam provides very high UV irradiance and throw
- Toggle on/off using clicker switch on tailcap
- Utilizes 18650 rechargeable battery (battery & charger available)

365 nm

for purchase) - approximately 90 min runtime on standard 2300 mAh battery

- 5.2 x 1.2 x 1.0 inch dimensions (133 x 30 x 25 mm)
- 3.2 oz weight without battery (92 g)

New to UV flashlights? [Read our overview article here.](#)

## Product Overview

Waveform Lighting's realUV™ is now available in a portable flashlight form factor! The integrated 365 nm UV-A wavelength LED is coupled with a BLACKOUT™ filter, which blocks visible light but allows just the 365 nm UV energy to pass through. The result is a strong, clean ultraviolet light beam that is truly invisible but creates strong fluorescence and other UV-A effects.

The realUV™ LED Flashlight is an indispensable tool for professionals in forensics, scientific research, industry and photography who require the highest quality UV light output in a reliable and easy-to-use form factor. The product is also a great fit for consumers looking for a powerful and effective way to detect fluorescence for carpet stains and even scorpions outdoors.

Rocks showing strong fluorescence under Waveform Lighting L/UV flashlight. Courtesy: Andrew Walker

365 nm

## UV Beam Intensity

Intensity values are measured at center of beam pattern at 365 nm.  
Beam angle is approximately 12 degrees.

## Battery Option

The realUV™ LED Flashlight utilizes 1x industry-standard 18650 Lithium-ion battery, which provides reliable and plentiful energy for each charge cycle. A basic 2300 mAh battery can provide approximately 90 minutes of continuous use on a single charge. The battery is removable and can be accessed by unscrewing the tailcap.

We offer this product in the following configurations:

- flashlight only (no battery)
- flashlight + battery + charger set

If you are using your own battery, we recommend using a protected 18650 battery with 2300 mAh or higher at 3.7V - 4.2V. The flashlight

365 nm

electrical input parameters are 3.7V - 4.2V, with a current draw of 1400 mA. A higher mAh rating battery will provide longer runtime per charge.

Rather not deal with the hassle of buying 18650 batteries and accessories? Purchase the flashlight + battery + charger set to receive everything you need. Included in the set are:

- 1x flashlight
- 2300 mAh protected cell ("button top") 18650 battery
- 18650 battery charger via micro-USB (USB cable included)

## Product Safety

### ULTRAVIOLET WARNING

This product emits UV-A radiation centered at 365 nm, in a very narrow and focused beam. UV-A radiation is not visible to the human eye, but can cause damage to eyes and skin when exposed at high intensity or time duration. Furthermore, the BLACKOUT™ filter on the product makes it difficult to visually detect if UV energy is being emitted.

Ensure that all users of this product are educated and aware of the dangers and risks of this product, and keep away from children and other users who may not be aware of the risks of UV light.

Always use eye protection, and never look directly into the UV emitting side of the flashlight!

### BATTERY WARNING

Lithium batteries must be used within their rated electrical, mechanical and thermal parameters, otherwise they may explode, burn or cause a fire. Use caution to prevent misuse or mishandling.

Do not leave batteries charging unattended. Buyer is responsible for any damage or injury caused by misuse or mishandling lithium ion batteries and chargers.

- Charge only with a smart charger designed for this specific type of lithium ion battery.
- Do not short circuit
- Do not use batteries that are damaged in any way, including torn or damaged wrappers or insulators
- Do not overcharge or over-discharge
- Do not modify, disassemble or otherwise alter the battery in any way
- Avoid exposure to high temperatures or liquids

## Waveform Lighting 100% Quality and Satisfaction Guarantee

If you're not 100% satisfied with the performance, color or quality of your product, we'll work with you to make it right.

Simply contact us within 30 calendar days after delivery and we'll send a replacement at no additional charge, or offer you a full refund.

**Just what I wanted!**  
Quality, Size, Convenience of a mobile charger... just what I wanted! Thank you for a Great product! :)

 ★★★★★ 10/16/2021  
**michael packard**

**365nm Flashlight**  
Bought this for the kids and myself to explore molds and fungus that grow in the woods behind our house. In the dark you would not believe the amazing colors and shades of blue and green slime molds and toadstools that grow on old stumps and mulch piles! Was a great purchase! Flowers and garden spiders take on a whole new pattern of color when illuminated with this flashlight. Very good quality...worth the extra money. It also super charges glow in the dark toys in a matter of seconds! Highly recommend however, not something to allow the kids to have unsupervised as it is very powerful and a bit more expensive than your... Read more

 ★★★★★ 06/23/2021  
**William Gillespie**

**Good light, but poor quality control**  
My flashlight arrived with the springboard unattached to the housing and the spring off-center and poorly soldered to the base.

Despite this, the flashlight functions, with the amount of UV-A exceeding any small flashlight I've previously owned. However, when I removed the battery, the spring has a tendency to roll on its side, and I have to open the housing and carefully reposition the spring prior to installing the battery.

This doesn't seem to be an issue other customers are experiencing, and the flashlight's performance is outstanding; therefore...

### Outdoor

When you're planning your camping trip, working on the job, hiking the mountains or just playing, *Energizer* has lighting to meet your needs. Don't let unreliable flashlights leave you in the dark. *Energizer* has a family of dependable, long-lasting, heavy-duty lights fit for all your needs, from headlamps to flashlights to lanterns.

#### Prepping for a camping trip?

In your search for the best camping gear to pack, keep in mind that bright and reliable lighting makes all the difference. In addition to your first aid kit, hat and compass, you might want to consider adding these to your camping checklist:

The adjustable and comfortable [Energizer\\_Vision HD+ Focus LED Headlamp](#) has a pivoting head that casts a beam up to 85 meters - lighting the way for hands-free tent set-up, wood gathering, and campsite cooking.

With up to 1300 lumens, the [Energizer\\_Vision HD 6AA Performance Metal Flashlight](#) is

[Energizer\\_High Lumen Hybrid Headlamp](#)

[Energizer\\_Headband Light](#)

[Energizer\\_Rechargeable Multi Purpose COB Headlamp](#)

[Energizer\\_Performance Metal Tactical Light \(700\)](#)

[Energizer\\_Panel Work Light](#)

[Energizer\\_Wearable Light](#)

[Energizer\\_Performance Metal Tactical Light \(300\)](#)

[Energizer\\_Vision Ultra Headlamp](#)

[Energizer\\_Vision Rechargeable Lantern](#)

[Energizer\\_Vision HD+ Focus LED Headlamp](#)

[Energizer\\_Performance Metal Tactical \(1000\)](#)

[Energizer\\_Universal Plus Headlamp](#)

[Energizer\\_Performance Metal Flashlight](#)

[Energizer\\_Vision HD 6AA Performance Metal Flashlight](#)

[Energizer\\_Vision HD 6AA Performance Metal Flashlight](#)

up to 15X brighter than the standard LED, making it one of the brightest choices you could make for your camping list. So when nature calls and you need to leave the tent in the middle of the night, there are no surprises.

Powerful & portable, the **[Energizer Compact Lantern with Light Fusion Technology™](#)** lights your campsite with 360-degrees of illumination. The handle can be used upright to carry or hang the lantern - or folds down for added stability on uneven ground. Water resistant, lightweight and slim, it saves precious real estate in your backpack.

**Great Product**

I like the style.  
Barebones produces good quality products and stand by their products. I have four of their lights.  
Excellent.

Cool "Old" Flashlight

I bought this to keep in the car and to use for camping. It is simple to use and easy to charge. It is bright enough for what I wanted it for, but it would be nice if the Lumens were included in the specifications.

## United States Patent and Trademark Office (USPTO)

### USPTO OFFICIAL NOTICE

Office Action (Official Letter) has issued  
on November 7, 2023 for  
**U.S. Trademark Application Serial No. 90893959**

A USPTO examining attorney has reviewed your trademark application and issued an Office action. You must respond to this Office action to avoid your application abandoning. Follow the steps below.

- (1) **[Read the Office action](#)**. This email is NOT the Office action.
- (2) **Respond to the Office action by the deadline** using the Trademark Electronic Application System (TEAS) or the Electronic System for Trademark Trials and Appeals (ESTTA), as appropriate. Your response and/or appeal must be received by the USPTO on or before 11:59 p.m. **Eastern Time** of the last day of the response deadline. Otherwise, your application will be **[abandoned](#)**. See the Office action itself regarding how to respond.
- (3) **Direct general questions** about using USPTO electronic forms, the USPTO [website](#), the application process, the status of your application, and whether there are outstanding deadlines to the [Trademark Assistance Center \(TAC\)](#).

After reading the Office action, address any question(s) regarding the specific content to the USPTO examining attorney identified in the Office action.

### GENERAL GUIDANCE

- **[Check the status](#) of your application periodically** in the [Trademark Status & Document Retrieval \(TSDR\)](#) database to avoid missing critical deadlines.
- **[Update your correspondence email address](#)** to ensure you receive important USPTO notices about your application.
- **[Beware of trademark-related scams](#)**. Protect yourself from people and companies that may try to take financial advantage of you. Private companies may call you and pretend to be the USPTO or may send you communications that resemble official USPTO documents to trick you. We will never request your credit card number or social security number over the phone. Verify the correspondence originated from us by using your serial number in our database, [TSDR](#), to confirm that it appears under the “Documents” tab, or contact the [Trademark Assistance Center](#).

- **[Hiring a U.S.-licensed attorney.](#)** If you do not have an attorney and are not required to have one under the trademark rules, we encourage you to hire a U.S.-licensed attorney specializing in trademark law to help guide you through the registration process. The USPTO examining attorney is not your attorney and cannot give you legal advice, but rather works for and represents the USPTO in trademark matters.
